Fourth Quarter 2019 Financial Results

Total net revenues in the fourth quarter of 2019 increased by 77.8% to RMB2,062.9 million (US\$294.9 million) from RMB1,160.2 million in the same period of 2018, primarily driven by the increase in live streaming and advertising revenues.

Live streaming revenues in the fourth quarter of 2019 increased by 84.1% to RMB1,892.5 million (US\$270.5 million) from RMB1,028.1 million in the same period of 2018, primarily driven by the increase in both the number of paying users and ARPPU^[3].

Such increases were driven by the Company further strengthening user-streamer interactions and upgrading user experience on its platform through the development and implementation of several new interactive product features, which helped to boost the number of paying users and enhance the Company's monetization efficiency for different tiers of streamers.

Advertising and other revenues in the fourth quarter of 2019 increased by 29.0% to RMB170.4 million (US\$24.4 million) from RMB132.1 million in the same period of 2018, primarily due to the Company's broadening brand awareness and the corresponding increase in demand from advertisers.

Cost of revenues for the fourth quarter of 2019 increased by 50.2% to RMB1,687.7 million (US\$241.3 million) from RMB1,123.9 million for the same period of 2018, primarily attributable to the increase in revenue sharing fees and content costs.

Revenue sharing fees and content costs in the fourth quarter of 2019 increased by 60.4% to RMB1,473.7 million (US\$210.7 million) from RMB919.0 million in the same period of 2018, primarily due to: 1) increases in revenue sharing fees which were in line with increases in total net revenues, and 2) increases in content costs attributable to the Company's investments in eSports-related and self-produced content, partially offset by decreasing sign-up bonuses for top exclusive streamers through the Company's continuous efforts on cost optimization.

Bandwidth costs in the fourth quarter of 2019 decreased by 0.9% to RMB151.4 million (US\$21.6 million) from RMB152.7 million in the same period of 2018, primarily due to the increases in bandwidth usage resulting from growing user traffic and user engagement on the platform, partially offset by a lower unit purchase price and improved bandwidth utilization efficiency as a result of the Company's proactive user traffic management during peak usage times as well as technology upgrades.

Gross profit in the fourth quarter of 2019 increased by 934.6% to RMB375.2 million (US\$53.6 million) from RMB36.3 million in the same period of 2018. Gross margin in the fourth quarter of 2019 expanded to 18.2% from 3.1% in the same period of 2018.

Sales and marketing expenses in the fourth quarter of 2019 decreased by 22.6% to RMB134.1 million (US\$19.2 million) from RMB173.2 million in the same period of 2018, primarily attributable to decreases in IPO-related marketing costs, frequency of offline promotional activities, and branding expenses incurred in promoting the Company's brand awareness.

Research and development expenses in the fourth quarter of 2019 increased by 8.4% to RMB100.2 million (US\$14.3 million) from RMB92.4 million in the same period of 2018, mainly due to increases in investment expenditure for the development of new interactive product features and increases in share-based compensation expenses.

General and administrative expenses in the fourth quarter of 2019 were RMB76.4 million (US\$10.9 million), compared with RMB74.1 million in the same period of 2018.

Other operating income, net in the fourth quarter of 2019 increased by 245.5% to RMB59.7 million (US\$8.5 million) from RMB17.3 million in the same period of 2018, mainly due to the increase of the government subsidies.

Operating income in the fourth quarter of 2019 was RMB124.1 million (US\$17.7 million), compared with an operating loss of RMB286.2 million in the same period of 2018.

Adjusted operating income^[4] in the fourth quarter of 2019, which adds back share-based compensation expenses, was RMB141.5 million (US\$20.2 million), compared with an adjusted operating loss of RMB264.0 million in the same period of 2018.

Income tax expenses in the fourth quarter of 2019 and 2018 were nil due to the Company's cumulative net losses and the resulting tax loss carryforward.

Net income in the fourth quarter of 2019 was RMB157.4 million (US\$22.5 million), compared with a net loss of RMB271.4 million in the same period of 2018.
