First Quarter 2020 Financial Results

Total net revenues in the first quarter of 2020 increased by 53.0% to RMB2,278.0 million (US\$321.1 million) from RMB1,489.1 million in the same period of 2019, primarily driven by the increase in live streaming and advertising revenues.

Live streaming revenues in the first quarter of 2020 increased by 56.0% to RMB2,113.0 million (US\$297.9 million) from RMB1,354.1 million in the same period of 2019. This increase was primarily driven by the following: 1) the Company's continuous efforts to develop and optimize its interactive platform features, which help to further strengthen the user-streamer interactions, and thus develop the user's willingness to pay and increase user's payment frequency; 2) improvements in management and monetization efficiency of mid-tier streamers as a result of closer cooperation with talent agencies; and 3) the ongoing monetization events of the Company, which have further boosted the revenue contribution from the daily operations on our platform.

Advertising and other revenues in the first quarter of 2020 increased by 22.2% to RMB165.0 million (US\$23.2 million) from RMB135.0 million in the same period of 2019, primarily attributable to the Company's improving brand awareness and the corresponding increase in demand from game advertisers.

Cost of revenues in the first quarter of 2020 increased by 39.4% to RMB1,792.2 million (US\$252.6million) from RMB1,286.0 million for the same period of 2019, primarily due to the increase in revenue sharing fees and content costs.

Revenue sharing fees and content costs in the first quarter of 2020 increased by 47.5% to RMB1,574.8 million (US\$222.0 million) from RMB1,067.4 million in the same period of 2019. This increase was primarily explained by: 1) increases in revenue sharing fees, which were basically in line with increases in total net revenues, and 2) increases in content costs attributable to the Company's investments in eSports-related and self-produced content.

Bandwidth costs in the first quarter of 2020 decreased slightly by 5.8% to RMB152.9 million (US\$21.6 million) from RMB162.3 million in the same period of 2019, primarily due to improved bandwidth utilization efficiency as a result of the Company's proactive management of user traffic during peak usage times as well as in-house technology upgrades.

Gross profit in the first quarter of 2020 increased by 139.2% to RMB485.9 million (US\$68.5 million) from RMB203.1 million in the same period of 2019. Gross margin in the first quarter of 2020 expanded to 21.3% from 13.6% in the same period of 2019.

Sales and marketing expenses in the first quarter of 2020 decreased by 13.1% to RMB107.4 million (US\$15.1 million) from RMB123.6 million in the same period of 2019, primarily attributable to the exemption of government-mandated social security contribution, and reduced office, travel and welfare expenses during the work-from-home period after COVID-19 outbreak.

Research and development expenses in the first quarter of 2020 increased by 17.0% to RMB92.9 million (US\$13.1 million) from RMB79.4 million in the same period of 2019, mainly due to increased investment in the development of new interactive product features as well as higher share-based compensation expenses, partially offset by exemption of government-mandated social security contribution, and reduced office, travel and welfare expenses during the work-from-home period after COVID-19 outbreak.

General and administrative expenses in the first quarter of 2020 increased by 33.3% to RMB84.6 million (US\$11.9 million) from RMB63.5 million in the same period of 2019, mainly due to higher share-based compensation expenses, partially offset by exemption of government-mandated social security contribution, and reduced office, travel and welfare expenses during the work-from-home period after COVID-19 outbreak.

Other operating income, net in the first quarter of 2020 increased by 11.4% to RMB16.6 million (US\$2.3 million) from RMB14.9 million in the same period of 2019.

Operating income in the first quarter of 2020 was RMB217.6 million (US\$30.7 million), compared with an operating loss of RMB48.4 million in the same period of 2019.

Adjusted operating income^[3] in the first quarter of 2020, which adds back share-based compensation expenses, was RMB259.5million (US\$36.6 million), compared with an adjusted operating loss of RMB30.6 million in the same period of 2019.

Income tax expenses in the first quarter of 2020 and 2019 were nil due to the Company's cumulative net losses and the resulting tax loss carryforward.

Net income in the first quarter of 2020 was RMB254.5 million (US\$35.9 million), compared with RMB18.2 million in the same period of 2019.

Adjusted net income in the first quarter of 2020, which excludes share-based compensation expenses, share of income in equity method investments, and impairment loss of investments, was RMB296.9 million (US\$41.9 million), compared with RMB35.3 million in the same period of 2019, implying an adjusted net margin of 13.0% for the first quarter of 2020.

Basic and diluted net income per ADS^[4] in the first quarter of 2020 were RMB0.82 (US\$0.12) and RMB0.79 (US\$0.11) respectively. **Adjusted basic and**

diluted net income per ADS in the first quarter of 2020 were RMB0.95 (US\$0.13) and RMB0.95 (US\$0.13) respectively.
