We stabilized our user base through continuous innovation and investment in our content and service offerings, while further improving revenue quality and augmenting our cost control initiatives. This quarter, our mobile MAUs grew by 2.5% to 57.1 million compared to last quarter. We also delivered a steady financial performance, realizing an adjusted net profit of RMB25.7 million. Going forward, we will further advance our game-centric ecosystem and deepen our collaboration with game developers, leveraging games' unique features and our abundant streamer resources to cultivate and iterate game content and interactive features. Driven by the vibrancy of our gaming communities, we endeavor to execute our growth strategy to develop and enrich our comprehensive game-centric content platform. Our abundant cash reserves would allow us to retain agility despite of the challenging macro environment, meaning that we can continue to stabilize and improve the financial performance of our core business. Looking ahead, we will proactively explore diversified avenues for monetization and refine our operating model in order to generate long-term shareholder value."

Third Quarter 2022 Financial Results

Total net revenues in the third quarter of 2022 decreased by 23.4% to RMB1,798.3 million (US\$252.8 million), compared with RMB2,348.0 million in the same period of 2021.

Livestreaming revenues in the third quarter of 2022 decreased by 22.9% to RMB1,705.0 million (US\$239.7 million) from RMB2,210.5 million in the same period of 2021. The decrease was primarily due to the ongoing implementation of prudent operating strategies which primarily included the Company's adjustments to certain interactive features and related operations to promote the long-term development of its platform.

Advertising and other revenues in the third quarter of 2022 were RMB93.3 million (US\$13.1 million), compared with RMB137.5 million in the same period of 2021. The decrease was primarily due to the continued exploration of new commercialization models by using a portion of advertising traffic that could have been directly monetized, as well as the soft demand for advertisements under the weak macro economy. The decrease was partially offset by the increase in other revenues contributed by game-specific membership services.

Cost of revenues in the third quarter of 2022 was RMB1,547.1 million (US\$217.5 million), a decrease of 25.2% compared with RMB2,069.5 million in the same period of 2021.

Revenue sharing fees and content costs in the third quarter of 2022 decreased to RMB1,319.6 million (US\$185.5 million) from RMB1,839.9 million in the same period of 2021. The decrease was primarily due to decreased revenue sharing fees which outpaced the decrease in livestreaming revenues, as well as a significant decrease in copyright costs.

Bandwidth costs in the third quarter of 2022 decreased by 17.4% to RMB135.0 million (US\$19.0 million) from RMB163.4 million in the same period of 2021. The decrease was mainly due to higher bandwidth efficiency achieved from dynamic bandwidth allocation, as well as a year-over-year reduction in peak bandwidth usage.

Gross profit in the third quarter of 2022 was RMB251.2 million (US\$35.3 million), compared with RMB278.5 million in the same period of 2021. Gross margin in the third quarter of 2022 improved to 14.0% from 11.9% in the same period of 2021. The increase in gross margin was primarily due to the decreases in both copyright costs and revenue sharing fees as a percentage of total net revenues, which was partially offset by the increase in other costs as a percentage of total net revenues.

Sales and marketing expenses in the third quarter of 2022 decreased 25.9% to RMB162.1 million (US\$22.8 million) from RMB218.9 million in the same period of 2021. The decrease was mainly attributable to the significant decrease in marketing expenses for user acquisition and branding expenses.

Research and development expenses in the third quarter of 2022 decreased 31.5% to RMB84.4 million (US\$11.9 million) from RMB123.2 million in the same period of 2021. The decrease was primarily attributable to the decrease in personnel-related expenses.

General and administrative expenses in the third quarter of 2022 decreased 39.5% to RMB52.3 million (US\$7.4 million) from RMB86.5 million in the same period of 2021, mainly due to the decrease in share-based compensation expenses and professional service fees.

Other operating income, net in the third quarter of 2022 was RMB36.5 million (US\$5.1 million), compared with RMB25.8 million in the same period of 2021.

Loss from operations in the third quarter of 2022 was RMB11.1 million (US\$1.6 million), compared with RMB124.3 million in the same period of 2021.

Adjusted operating loss in the third quarter of 2022, which adds back share-based compensation expenses, was RMB8.4 million (US\$1.2 million), compared with adjusted operating loss of RMB91.0 million in the same period of 2021.

Net loss in the third quarter of 2022 was RMB6.6 million (US\$0.9 million), compared with RMB143.5 million in the same period of 2021.

Adjusted net income(loss) in the third quarter of 2022, which excludes share-based compensation expenses, share of loss in equity method investments, and impairment loss of investments, was RMB25.7 million (US\$3.6 million), compared with adjusted net loss of RMB72.7 million in the same period of 2021.

Basic and diluted net loss per ADS [4] in the third quarter of 2022 were RMB0.01 (US\$0.001) and RMB0.01 (US\$0.001), respectively. Adjusted basic and diluted net income per ADS in the third quarter of 2022 were RMB0.09 (US\$0.01) and RMB0.09 (US\$0.01), respectively.

As of September 30, 2022, the Company had cash and cash equivalents, restricted cash, short-term and long-term bank deposits of RME6,872.7 million (US\$966.2 million), compared with RMB6,643.5 million as of December 31, 2021.
